Whoop! 'em up, boys, and don't forget your ticket. Tom Watson says you don't have a bite until he sees you've got beer. Ex-Minister to China Dr. William Bowman will be on hand Thursday and Judge William G. Dearing on Friday, as well as others. The weather's very favorable, and it looks like the boys are to have a rattling good time, if the Electric Park will hold them all.

"Only a Tramp" at the Opera-house was witnessed by a small audience, but the performance was way above that of the night before, which shows that the Company will be at its best tonight in "Gilbilly's Troubles," a four-act comedy that is brim full of laughs. Along with this funny comedy will be seen for the first time in Mayville the greatest of all dancers, "Cyrene," and coupled with the fact that there is no addition to the price of admission--10, 20 and 30 cents--there should be a crowded house.

Among the many exhibits at Floral Hall, there are none that surpasses that of the Watters Party of Artists, whose studio is at the St. Charles Hotel. Their work is its own best recommendation.

### FIRE AT ELIZAVILLE.

W. H. Prather's Store and Several Dwellings Destroyed at Noon Yesterday.

About noon yesterday fire broke out in an unoccupied house belonging to Dr. O'Bannon at Elizaville, and soon spread to another house belonging to Dr. O'Bannon and occupied by Mr. McCord.

Following these Mr. William H. Prather's store burned, and it was only by tearing away an adjoining shop belonging to Mr. Joekey that the progress of the fire was stopped.

It looked for a time like the entire town would be destroyed, and it was saved only by the heroic work of the citizens.

The Flemingsburg Fire Company went to the assistance of the town, but the fire was under control when it arrived.

It is learned that Mr. Prather had some insurance on his store and stock of goods, but the property of Dr. O'Bannon was uninsured.

The origin of the fire is not definitely known.

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

KENTUCKY REPUBLICAN PLATFORM.

Adopted at Louisville, Aug. 29th, 1920.

Resolved, by the Republican party in Convention assembled—

First—That we reaffirm the principles of the Republican party as set forth in the platform adopted by it at St. Louis in 1904.

Second—That we endorse the Republican National and State Administrations, and especially commend the action of our present state officials in their efforts to suppress mob violence and to preserve the financial credit of the state.

Third—We commend the action of the representatives of the Republican party in the passage of a tariff bill which will raise revenue sufficient to support the Government, prevent the issue of interest-bearing bonds, protect American labor and maintain the national credit.

Fourth—We are opposed to a strike of Civil Service employees and we demand that the Civil Service Law be modified so as to limit the term of service to four years, with the privilege of reappointment or promotion, subject to such restrictions as will secure competent officials and give to every section of the country a proper proportion of them.

Fifth—We heartily sympathize with the struggling people of Cuba in their efforts to secure liberty and independence.

Sixth—That we recommend to the people the adoption of the Constitutional amendment submitted by the last Legislature, allowing all cities and towns the privilege of regulating under legislative supervision the method of laying the taxes they impose on themselves for city and town expenses.

Seventh—We favor the passage of a law that will protect the laborer of Kentucky from the competition of foreign labor, and, if necessary to accomplish said result, an amendment to the Constitution permitting such legislation.

"The best way to get rid of a bad law is to enforce it."—General Grant.

Therefore THE LEDGER favors the rigid enforcement of the Civil Service Law.

REPUBLICANS should remember that there are still several Democrats left in the country. It may seem strange, but it is true. Every Republican vote should count in November, even if there is a prospect of an overwhelming victory.

THE Republicans are reported to be "in danger from over confidence" in several of the states where they are campaigning this fall. While everything is going their way there is a possibility that they may forget to get out their full vote.

## FROM BRYAN DOWN, THE SILVERITES

are vainly trying to explain the silver-wheat theory. "Speaker" BAILEY of Texas is the last one to try his hand at it.

On Labor Day ALTOUGH spoke about "Government telegraphs" and "Government railroads," BRYAN spoke about "Government by injunction," BLAND spoke about "Inconvertible greenbacks," Poor silver!

GOVERNOR TILLMAN of South Carolina is abroad again with his pitchfork, stating that he does not see any real signs of prosperity. In a speech in New York state the other day he likened the way of business and farm activity which is now sweeping over the country to a hot-air balloon ascension, and predicts that it will collapse with a mighty thud. The wheat boom, he asserts, is merely speculative, and for the aid of MARK HANNA; that when wheat goes up it is at the expense of the people of the East who buy bread. If Mr. BRYAN were to be voted for today he would be elected, he says, by an overwhelming vote. In the first place, if Mr. BRYAN were to be voted for today he would stand no more show than being elected that the man in the moon; but will the Governor state just where he stands? Last year he hurried denunciations at the gold power because the farmer was getting a low price for his wheat; now he says the high price of wheat will cause suffering among the people who buy bread. But Mr. TILLMAN's remarks are not worthy of serious consideration. Any man who makes such a statement as that the present great wheat movement affecting the whole world, to the extent of hundreds of millions of dollars, is "merely speculative" and designed to aid MARK HANNA is either a fool or a knave. The Senator is not thought generally to be a fool, and it is hardly polite to call a United States Senator a knave. Still we wish to give the Senator the benefit of the doubt, and will leave the verdict to the people.

September 28th the C and O will sell round-trip tickets Mayville to Dayton, Ky. at \$1.70. Tickets good one day.

The Sovereign Grand Lodge, Independent Order of Oddfellows, is holding its annual session at Springfield, Ill. This week the lodge will receive delegates from many from foreign places are present.

NEWT NOTES FROM NATURE'S GREAT HIGHWAY.

The Courier has been withdrawn from the Cincinnati-Maysville trade and the Argand put in her place.

Sam Scaramouch, who passed this city several weeks ago with a steamer being in low, burred yesterday near Natchez. She is a total loss.

There are no packets of any consequence making any time at all above this city. It is a hard matter for the boats to get enough water power to make steam, let alone lumber.

A diving fleet has just been accomplished which probably beats anything heretofore attempted. In 1905 a steamer with \$1,000 in gold coin was sunk in 189 feet of water off the coast of New Wales. The treasure has just been recovered. At times the pressure upon the divers was from seventy to seventy-five pounds to the square inch, and their suffering was very great will return by next Monday.

The Western Waterways Association will hold a meeting in Burlington, Ia., October 6 and 7. The object of the meeting is to take suitable action on what city several weeks ago with a steamer being in low, burred yesterday near Natchez. She is a total loss.

DR. HUNTER

And Others, Charged With Conspiracy to Bribe, Acquitted.

FRANKFORT, Ky., Sept. 22.—The long drawn out argument in the conspiracy to bribe trial of W. G. H. Hunter and others was concluded Monday night at 10 o'clock. Tuesday morning when the court reconvened at 9 o'clock and the jury filed in, the judge told them to go to their room and "make a verdict."

At 11:30 the jury returned a verdict of not guilty in all the cases and the defendants were dismissed.

During the extra session of the Kentucky legislature last spring, called for the purpose of electing a United States Senator to succeed to Blackburn, W. G. H. Hunter was a republican nominee. Although there was a republican majority in the legislature, Hunter lacked three votes of election.

It was charged that Hunter and others had conspired to bribe three members to vote for him. The members were Clark, Gosson and Johns.

As a result of an investigation by the grand jury, W. G. H. Hunter, E. F. Franks, J. H. Wilson, Ned Gaines and Thos. Tanner were indicted for conspiracy to bribe in the spring of 1917.

On the opening day of the trial Tanner was dismissed and the trial of the other defendants proceeded.
